

General information according to § 15 section 1 of the regulation for the insurance broking and consulting (Versicherungsvermittlungsverordnung – Vers Verm V)

Services

Hanseatischer Versicherungsdienst Eduard Pfeifer GmbH, founded in 1984, handles mostly the insurance requirements of the transport industry. We attend to renowned transport companies and related businesses both at home and abroad, especially in the fields of transportation insurance, freight forwarders liability insurance and other business liability insurances. Of course we also cover the other insurance requirements of these transport companies and of other customers. Due to the impending special orientation it was necessary to implement a differentiated operation method.

We are a commercial insurance broker in the sense of § 34 d section 1 GewO (Trade, Commerce and Industry Regulation Act) with the capacity of an insurance broker.

In our core segment (insurance requirements of the transport industry) together with renowned German insurance companies we have developed special insurance products with respect to freight forwarders liability insurance, classic public liability insurance including environmental liability insurance for transport companies, we perform as providers of products under the lead of these insurance companies, work in these areas as a special broker with an exclusive status and we also support you in claims procedure.

Permission of the Chamber of Commerce and Industry (HK), Adolphsplatz 1, 20457 Hamburg
